POR PREE KANSAS-FMEE PRESS. PREE SPEECH-PREMONT! FOR PRESIDENT, JOHN C. FREMONT

FOR VIOE-PRESIDENT.

WILLIAM L. DAYTON FOR ELECTORS State at Large (EDWARD D. HOLTON, TIMOTHY O. HOWS.

NEWS OF THE MOUNING.

Congress adjourns to-day, and there is a probshifty of a sharp contest on retaining or throwing out the Kansas amendments to the appropriation bills, these only remaining to be acted apon. The bill giving members \$6000 salary for their two years has pussed both Houses. We publish an abstract of the report of the Committee sent out to Kansas. It will be found interesting. Meantime the Administration is striving hard to get rid of the odium which the outreges there justly belog upon it.

It is said that the authority of Mr. Campbell for the assertion that the Kansas treason trials would not be pressed in the President himself. What will the South and Mrs. Grundy tay? We have advices of a cerrible storm in and near New Orleans last Sanday and Monday, and the loss of many lives.

Our foreign correspondent's letter from Palesline is very readable. Mr. Beacher's story of his dog "Noble" is onof the best things we have read this many a day.

The parallel drawn is perfect. Another reliable correspondent, it will be seen, brings home to one of the Buchanan elect ore in this State, the charge of Know Norblus

Report of the Kunsus Committee.

Mesars Hown and HYATT, of the Committee of the Buffalo Convention, have just sent to the National Committee, under date of Aug. 11th, a report of what they have seen and know. The whole report -- two and a half columns-is to long for our space, but we give its substance.

The Committee confirm all that is said of the outrages committed upon Free State men going up the Missouri tiver, and the complete blockade of that stream by the Rufflans, and to get into Kaness were compelled to go through Iows and Nebraska, passing in their journey many parties of omigrants making their toilsome way overland, and several others returning disheart-

They found a large number of emigrants encamped about 40 miles north of the Kansas line, and with them were a large number of settlers who had been driven away from their homes, and from there last they learn "that thousands in Kaneas are suffering actual privation and want, to the in consequence of the late outrages, and their prospects for the coming Winter are drawy indeed, because the general auxiety and uncertainty about the future paralyzes all business. Kany would get away if they had the means. Several thousand dollars, forwarded by the Buston Committee, reached in good time, and their distribution gave great rehef and inspired fresh hope. A responsible man writing to one of the undersign ed, says, " the distribution has saved Kansas

The Commisse state that there were between Iowa City and the encampment in Nebraska about 500 emigrants, some 400 of them at the encampment. The leaders of the several parties had addressed a request to the Commander at Pt. Leavenworth for an escort, as their lives were threatened by large bodies of the Ruffians, and only a postion of the emigrants were armed. Concerning the character of the company, the defeat Col. FRENONE, these gentlemen have thus being stopped to load. Mr. Colt would no doubt Committee sar :

The undersigned have visited and sojourned with this party of emigrants, and they can confidently usatify to its character.

Many are pious people, and observe the rites of rollgion, and keep the Subbath revorently.

Baside preaching, they have Bible classes, and Studay schools for the voung. This is especially the case with the Wisconsin emigrants, who have their wives and children with them. They are temperance men; intelligent, moral, industrious, and curract men; intelligent, moral, industrious, and curract men; who would make good children anywhere. They form the most numerous party; and from their numbers, and their "What," it asks, "does this confidence emigration. ______ The Buchman K. N. Elector. The Atlas of Saturday publishes the subjoined communication from a gentleman at Ripon, re-iterating the charge that Henry S. Wesn, who is on the Buchauau Electoral ticket for this State, is a Member of the Know Nothing Lodge at Ripon. The letter is accompanied, and vouched for by a responsible name, and a different one from our correspondent, who makes the -amo charge. We have now three witnesses against

Mr. Wenn, who assert positively that he is a K. N. in regular standing. Since the appearance of Mr. H. S. Oaton (a leading K. N.) on the stemp for Mr. BUCHANAR, it is no wonder that Know Nothings should be found on the Buchanan Elec

Editor of Atlas : Sir: Henry G. Webb, the Buchanan Kaca Nothing Elector of this town has assued his circulors and directed them to a number of the papers of the State, not denying, nor intending deny, but only feigning and sembling a denial, that he is a Know Nothing. Well, a Know Nothing "is a quare thing entirely," as Pat would say. HUMCHRAY MARSHALL, a leading K. N. Conresonan, has written a letter to the Kentucky Commonwealth, touching the prospect of the No vember election, in which he says:

"The people of the slaveholding States can lect Mr. Fillmore without sending the election elect Mr. Fillmore without among the election to the House, if they will unite on him. A union upon Mr. Buchanan will not, cannot, now accomplish that result. He is too weak in the Free States to do any good there with him. I declare that I do not believe he can carry a single Free State, if Mr. Fillmore were dropped to-day. I feel certain he could not."

Senator Prance, of Maryland, formerly a Whigout now a Pro-Slavery Buchanan, while personally friendly to Mr. Pillager, thinks is no use to no more. They liked by no means the appearwaste any votes upon him and therefore declares for Buchanan. He, too, days:

Mr. M. and myself, riding side by side, particularly enjoyed this scene, for it was a reproduction on a small scale of our own Wisconsin. In addition we passed large fields of wheat and other crops just heading out. I have never seen bet-

We then entered again the mountains which commence approaching the About noon after leaving Lyda, we passed over a small river, across which, was a stone bridge built by the Romans. I don't believe there were ever six hearts that boundedup into their six throats quickr than ours did, the surprise was so sudden. On reconnoitering our position, we found that all this noise and confusion was made by three wild Bedonin Arabs, who were mounted on flery horses, as wild and untameable as their riders and had gallopped across the plain, from some distant point of lead, from whence they had undoub edly watched us. They were dressed in their native costume, and fairly glistened with arms. I think in one field, agraph from the Janesville Gazette of Friday last I counted over two hundred camels.

We usually halted about five or six o'clock in the afternoon, to give ample time to get our tents pitched and dinner over by dark. As it may be interesting to my readers to know how travellers get along in Syria and Palestine, I will give them a day's experience which will answer for all time, for this is the only way to travel at all comfortably in these savage and half-civilized regions.-No man should travel alone, on account of safety and pleasure, as well as economy. Parties usually form at some of the large starting points, auch as Atexandria, Cairo, Constantinople, Bey rout and some other points. Ours started together from the former place, and I was extremely furtamete in falling in with such agreeable and ple sant acquaintances as I did in making this trip. In fact much of the pleasure of travel dopends upon onc's fellow travellers, particularly in a country like this, where everything from econsity has to be made common stock, and where they are brought so contiguous to each other. Our stores, tents, camp equipments and nearly everything else were purchased at Cairo. nearly everything else were purchased to cannot and shipped to Jasta and from thence carried by cannels to Jerusalem. Here we hired horses for our selves, and mules for our baggage. We had everything comand made the buds. We had everything complete, for there are stores that keep all these things ready to fit out parties on a moment's notice. But the Express, like Noble, has opened upon the hole in the wall, and can never be done by thing at it. Day after day it resurts to the empty hole. When everything else fails, this resource remains: There they are indefictigably—the Express and Noble—a Church without a Famont and a hole without a control in it! the Rapress and Noble at Charch without a feature, and a hole without a squirrel in it! in some respects, however, the dog had the a vantage. Sometimes we thought he really believed that there was a squirrel there. But at a her times he apparently had an inkling of the a liculousness of his conduct, for he would drop the land and the liculousness of his conduct, go had a togget and the togget n liculousness of his conduct, for he would drop by tail, and walk towards up with he tongue of taud his eyes a little aslant, seeming to say, "My dear sir, you don't understand a dog's feelings. They think that I have got comething. It is needed to teil the truth, I have looked into that hole so long that I have helf persuaded myself that there is a equired in there, or will be, if I keep on."
